

## PC-12 PILOT TRAINING

### PC-12 Legacy Pilot Training

Please take note that we can no longer offer Pilot Training for the PC-12/41, 45 and 47. However, we would be pleased to provide you the details of alternative training organizations.

### PC-12/47E Next Generation (NG) Pilot Training

Course dates for the PC-12 NG Pilot Ground training are visible on the attached chart.

The duration for the Ground Theory Training is 7 days and for the flight training approximately 7 – 10 days depending on weather and student ability.

### PC-12 Differential Training

Pilot differential training from the PC-12 Legacy to PC-12 NG aircraft is available **on request only** and is therefore not published. (Course duration: Theory 4 days)

### Language:

The standard course languages are English or German.

### Number of participants:

Please understand that the minimum number of course participant is three (3) and the maximum is four (4) per course.

### Application deadline

Please ensure that the application to attend the courses is made **1 month** prior to the course starting.

### Course registration:

Please contact us if you would like to book a seat on one of the listed courses or if you would like to receive a specific offer for one of our training courses.

Please forward your request by e-mail, fax, or letter, containing the following details:

- Full name and address (in capital letters)
- Phone, Fax numbers and e-mail address
- Type of training course
- Preferred course date / alternate date

Our contact details are as follows:

Pilatus Training Department	Phone:	+41 41 619 60 31
	Fax:	+41 41 619 63 00
	E-mail:	<a href="mailto:info-training@pilatus-aircraft.com">info-training@pilatus-aircraft.com</a>
